Programming Guide, Agilent Technologies Signal Generators

In PXA, Signal Track is bound only to Marker 1, and cannot be enabled for any other marker, whereas PSA permits a subopcode specifying which marker to use. PXA supports this functionality only in the Swept SA measurement. In PXA, Signal Track is in the Span menu, whereas in PSA it is located in the Frequency menu.

Keysight X-Series Signal Analyzers

With a streamlined multi-touch UI, wider bandwidth and application software, the Keysight PXA offers the tools you need to design, test and deliver your next breakthrough in satellite communications. Streaming, Analysis and Playback of RF Interference Signals in AD Applications - Application Note.
