Bendix Hydrovac Brake Booster - 2500660

The operational descriptions are for different styles of Hydro-Vac boosters however, the principles are the same for all Hydro-Vac boosters. As pressure is applied to the brakes, fluid is passed into the Hydro-Vac (yellow). It by-passes the hydraulic brake piston (# 20, thanks to the check ball), and pressure goes through the lines to the wheel cylinders.

Hydrovacs - Bendix - Page 1 - Power Brake Sales

There was one booster used before this model of hydrovac that was an extremely simplified version of this one. The other type was a newer version of vacuum booster. I'm assuming my unit is its predecessor? I think (key term 'think') that Burgoyne's booster is the kind where the brake pedal itself actually links up to the booster.

bendix hydrovac for sale | eBay

Hydro-Vac Rebuild Service We are not rebuilding Hydro-Vacs right now. Since new vehicles are generally not using Hydro-Vac systems, but are using Hydro-Max or air brakes instead, few new parts are being made to rebuild existing units and old units are getting exhausted.

Hydro-Vac Rebuild Service

Release brake application, then remove atmospheric air hose from vacuum booster control valve. (NOTE: This is the hose running between the booster and its externally mounted filter generally found in the cab.) Make a full and rapid brake application and again observe gauge at wheel. Hydraulic pressure rises instantly to between 1000 and 2000 p.s.i.
