Backyard Bowyer

Making the PVC Recurve Bow The basic difference between the recurve bow and a simple bow made out of straight PVC pipe is that the recurve bow is curved to increase the amount of velocity it can transfer to the arrow. This curve is made by heating the PVC with a heat gun, bending it to the desired shape and holding it there while it cools.

How To Make A Serious Survival Bow From PVC Pipe - Off The ...

Step 1: Use the saw to cut your PVC pipe to the desired length. We made two sizes - 3 feet and 4 feet. The one in the picture above is 4 ft. Step 2: Drill a small hole on each end of the PVC pipe to tie your string through.
