Wallace & Tiernan Products and Services. Our legacy in chlorination began 100 years ago with one of the most significant public health advancements of the millennium - the 1913 installation of the

first chlorinator in a public drinking water system. It continues today with the latest in gas chlorination, disinfection and chemical dosing systems and packages.

Wallace & Tiernan

The Wallace & Tiernan microprocessor based SCU (Signal Conditioning Unit) is designed for automatic flow pacing of chemical dosage. It provides accurate control of gas feed equipment positioners, chemical metering pump stroke positioners and variable speed drives. Solenoid operated pulse pumps can also be controlled from the SCU.
